The CoventorWare software suite is filled with MEMS-specific features that enable you to: develop MEMS devices at a lower cost become productive more quickly, focusing on your MEMS design instead of your software efficiently design new MEMS products, moving them quickly from development into production rapidly explore and optimize design and process options adapt existing designs and processes to new markets efficiently accommodate customer-requested design changes save fab cycles during development and improve yield.. ru Mentor Graphics DxDesigner Expedition Enterprise 2 007 1 Mentor Graphics Edif200..
